

A New Phase of Unity and Cooperation of TLBU Community

2013 Voluntary Contribution Campaign

More than 25 years of preparation for his divine mission, President LYOU Byung Hwa, our Father, has devoted everything to build up and bring the TLBU Mission to light. With a sharp vision in social and global changes, President LYOU strongly conceives that TLBU Mission should be a divine mission, and thus TLBU will be on an ever-growing path toward the everlasting peace-making Mission.

Since its inception and preparation from 1987, TLBU has always been confronted with hardships in particular the financial deficiency. Even when TLBU opened and began its operation in 2001,

President initiated it with substantial debts, but he had never mentioned these difficulties to his students. However, in 2008, Global Economic Crisis began to emerge, and after the establishment of TLBU Global School, a more than 10-million-dollar project, TLBU Community in Seoul has suffered much in terms of financial sector which accumulates a large burden on the school operating process and its daily expenses for TLBU graduate students. Bill accumulations have triggered many problems, staff pay-day needs to be postponed; whereas President LYOU's bank account and credit cards have been blocked, since he sold all his properties to support our study, but could not pay capital gain tax and other tax and bills. Fortunately thanks to the devotion of senior Wang Ya and others, Oh St. Joseph Hotel (Howard Johnson) in New Jersey and Office Building in Washington DC Area are in good business and are supporting TLBU in Seoul and Paris.

Having been in such a difficult circumstance, President LYOU is of a belief that it should be time to strengthen the cooperation and unity of TLBU Community, and should begin TLBU Global projects including trade and law firm networking. For this reason, he proposed a voluntary contribution campaign to TLBU family members in China, Viet-

nam, Cambodia, Indonesia, Laos and Korea, and in response to his call, many family members immediately expressed strong and warm support. He was profoundly impressed and deeply proud of his beloved children. Most alumni from the first entering year 2001 until the latest year 2011 warmly expressed their strong desires to support the voluntary contribution campaign with their financial aid and promises to annually support further funds for the sake of TLBU Divine Mission.

It should be reminded that between 2009 and 2010, ten Chinese alumni, by themselves, had already made a big contribution to TLBU in Seoul. On December 8, 2009 alumnus Peng shangyue from entering year 1 (2001) had made a remarkable contribution to TLBU. Between November and December 2010, the following contributors include alumni PENG Shangyue, XIA JI, and Lan Lan (Y1C), alumna Lin Lihui (Y2C), alumni Chen Li, Wu Yingxi, TU Jun, and Li Guodong (Y4C), and alumni Wang Xi and WU Chen (Y5C) also expressed their strong support through this voluntary contribution.

However, the voluntary contribution campaign in 2013 marks a very significant difference. A great many of alumni from South-east Asian and East Asian countries in particular China, Korea,
